

CORPORATE COMMUNICATIONS

Application: Large auditorium with
18" high stage

Light distribution:

Vertical Illuminance: good (front),
good (back)

Luminaires: 9 1SL255, 4 MSL255

Lens: wide honeycombs on all

Grid / Ceiling height: 13-4'

2" pipe grid @ 11' on 4' centers

Riser: 1.5'

Suspension: via 2" studio clamps

Horizontal distance: 6-12'

Tilt from horizontal: 45 - 60 dgr.

Throw distance: 7-13'

Power consumption, stage: 1430 Watts

STRATEGY:

The 8' x 24' stage was lit for multiple talent positions. It was assumed that a pipe grid will be installed 11' above the stage and that the luminaires are suspended from the grid with studio "C" clamps
